

TOM — KIRK LIGHTING

Cintola Midi Pendant

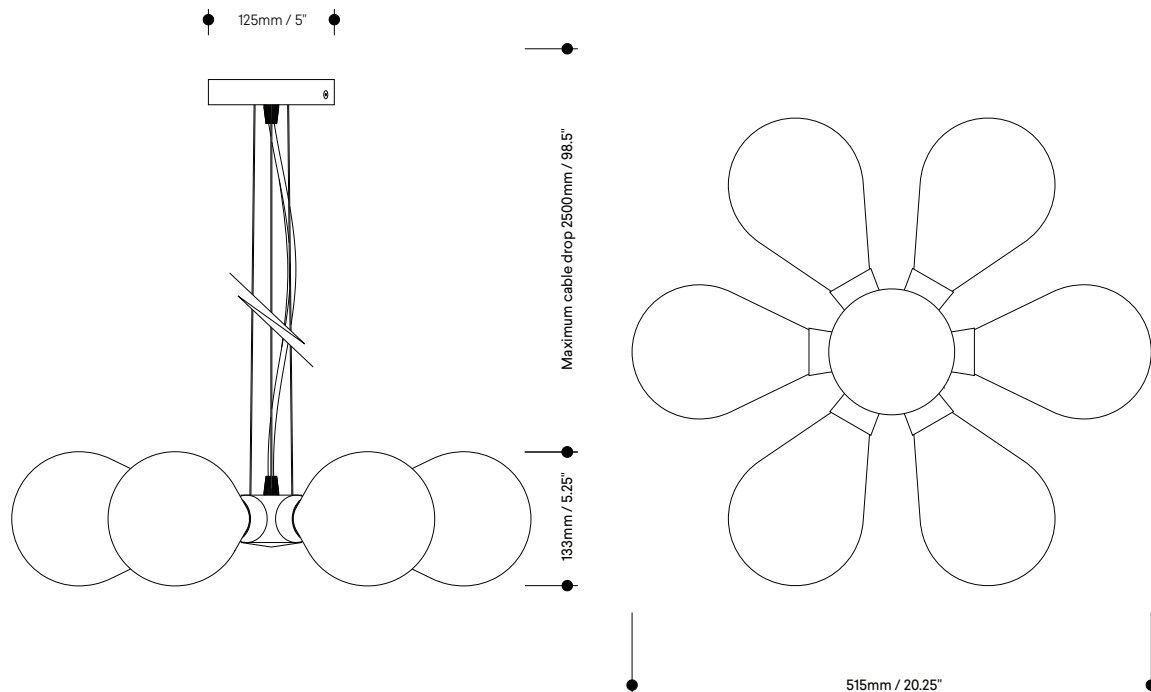

The Cintola Midi is a refined, smaller-scale version of our signature Cintola Maxi Pendant. Combining hand-blown glass with a precision CNC machined body, it offers a sophisticated balance of sculptural form and technical excellence.

Designed for both residential and commercial interiors, the Midi belongs to a wider family including the Cintola Wall Light and Cintola Wall Light Twin, allowing for a cohesive lighting language throughout any project.

Each luminaire is built to exceptionally high production values and features an adjustable stainless steel cable for precise height positioning in any setting.
